+ HELP YOU BUILD  
HEALTHY LIFE-  
STYLE HABITS

# Before you start: SELF ASSESSMENT

**In order to know where you're going and how to get there, you must first understand where you are.**

**Take this quick test to better understand your current habits.**

- ✦ Reflect how you feel about each of the different aspects of well-being.
- ✦ Rate each aspect from 1 to 10, with 1 meaning "I really struggle with this" and 10 meaning "I feel great" or "I have no problem with this."
- ✦ Assign a value by filling in the small circle from 1 to 10. (Example ratings can be found in the descriptions below).
- ✦ Then draw a line to join the marks to see which areas of well-being you should focus on.

## Stress management

Are you content with your current habits when dealing with occasional stress (e.g. rating 8), or do you need to focus on gaining tools for your stress responses (e.g. rating 2)?

## Sleep quality

Do you feel like you regularly get enough sleep (e.g. rating 8)? Or are you interested in habits and tools to help you fall asleep and to support quality sleep (e.g. rating 2)?

## Digestion

Are your bowel movements regular and comfortable (e.g. rating 9) or are you looking for ways to support digestive health and regularity (e.g. rating 2)?

## Immunity

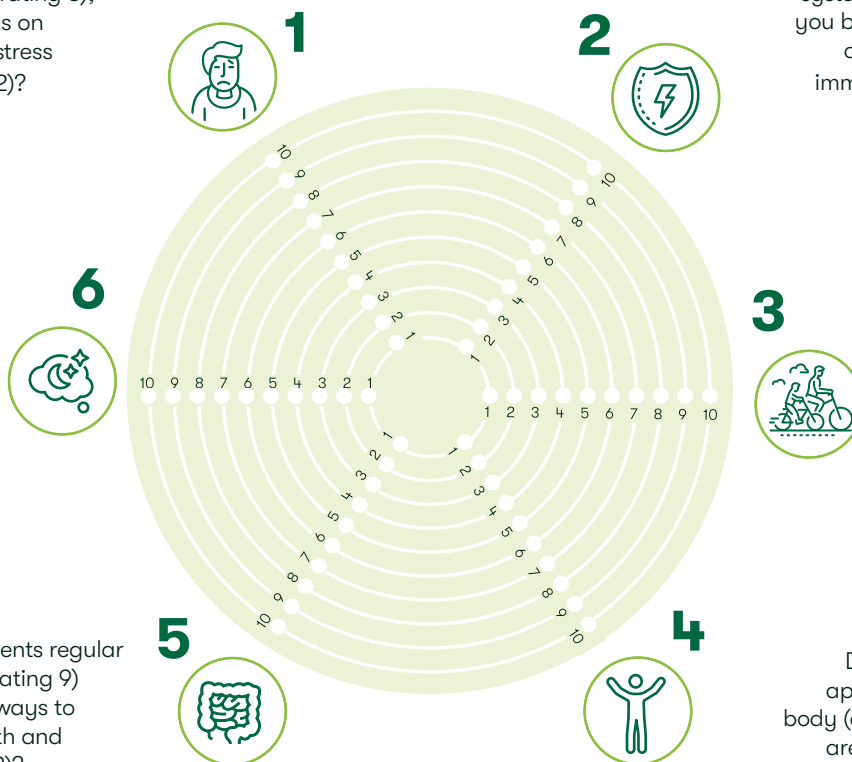

Do you feel satisfied with how you support a healthy immune system (e.g. rating 9)? Or could you benefit from learning about other ways to support your immune health (e.g. rating 2)?

## Physical activity

Do you love exercising regularly and never miss a workout (e.g. rating 10), or do you find exercise to be a chore that you try to avoid (e.g. rating 2)?

## Overall appearance

Do you feel happy with the appearance of your skin and body (e.g. rating 8)? Or are there areas you would really like to improve (e.g. rating 2)?

**Too many filled circles close to the center of the wheel might mean you could benefit from some lifestyle changes.**

# Introduction to the Reset 30 Program

In order to function at its best, your body needs to remove the waste it produces. This natural cleansing process is performed by a group of organs working together around the clock.

## LIVER

The liver is the body's natural detox system and **it works by filtering and cleaning** our blood. We support a healthy liver by cutting down on fatty and fried food, as well as alcohol and foods with high sugar content. We can also support the liver by consuming foods and supplements that support the normal function of the liver.

## SKIN

Skin is **the largest organ** in our body. Just like all our other organs, it needs enough water to function at its best. We can take care of our skin by staying hydrated and reaching for the nutrients it craves. A healthy diet full of omegas, vitamins and antioxidants can make all the difference in what you see when you look in the mirror each morning.

## LYMPHATIC SYSTEM

The lymphatic system **removes foreign bodies** by transporting them to the circulatory system. To help support proper lymphatic function, reach for foods rich in vitamin C, like oranges and grapefruits.

## GUT

Listen to your gut, because **this organ digests and absorbs nutrients** as well as supports the immune system, impacting body weight, energy and appetite. It's home to trillions of microorganisms that play important roles and can even influence how we respond to stress. Support your gut by eating a healthy diet, full of fresh fruits and vegetables, prebiotics and probiotics.

## BOWEL

Like the body's canteen, the bowel is where **nutrients are absorbed** from food and solid **waste is removed**. We should pay attention to our fiber intake to ensure appropriate fecal bulk and support normal bowel function and intestinal transit.

## KIDNEYS

The kidneys act like a home water filter, **filtering out undesirable substances** and waste from the blood to remove them from the body. Drinking adequate amounts of water daily helps support healthy kidney function.

The Reset 30 program provides a **holistic approach** to making better, healthier lifestyle changes. Set your intentions and create a strong routine with **professional expertise, support and supplements.**

**Building positive habits** helps you **live a happier and healthier life.**

## Pillars of well-being

### Nutrition

Getting the right amounts of macronutrients, vitamins, minerals and phytonutrients as part of a balanced and varied diet to support your metabolism and key bodily functions — like the nervous system and those involved in the body's natural cleansing process — is key for your overall well-being.

### Physical activity

Building healthy habits around staying active is a great way to start improving overall well-being.

### Positive Mindset

A positive mindset and relaxation can also support your ability to fall asleep. Adequate sleep can have a wide-range of impacts on your mood, focus and immune system.

### Hydration

Water contributes to the maintenance of normal physical and cognitive functions.

# Nutrition

## NutraLITE™ products in your Reset 30 Program

For the next 30 days, try easy swaps in your daily diet. Instead of reaching for fast food or a processed snack, grab whole fruits and vegetables across the colors of the rainbow. And when you can't get enough nutrients from protein, fruits, vegetables and fatty fish, fill nutrient gaps with these NutraLITE™ products:

### NutraLITE™ Balance Within™ Probiotic

#### Probiotic support for your gut microbiome!

Helps support a healthy balance of gut bacteria. Made with a unique blend of 6.3 billion CFUs of clinically tested probiotic strains to support healthy digestion.

120571

### NutraLITE™ Organics Plant Protein Powder

#### Protein from three plant sources, without unwanted extras!

Proteins are essential for everyone regardless of age or lifestyle. They are the support structure for your body and they provide a framework for your bones and muscles. This organic goodness features 21 grams of powerful plant protein from wholesome brown rice, plus peas and chia grown on our own organic farms and partner farms.

125925/125923/125921

### NutraLITE™ Liver Support

#### Supports the body's natural detox system.

The liver is your body's natural "detox" system, so giving it the natural support it needs is essential to support its normal function. Using botanical ingredients from plants grown on our farms and partner farms, each convenient tablet of NutraLITE™ Liver Support provides nutrients from turmeric, dandelion root, and milk thistle that work together to support normal liver function.

A8084

### NutraLITE™ Fiber Powder

#### A convenient way to get additional fiber.

A steady flow of fiber in your diet helps support a healthy, balanced microbiome. While we should be eating 20 to 35 grams of fiber a day, most Canadians only get in about 10 to 15 grams. NutraLITE™ Fiber Powder provides 4 grams of soluble prebiotic fibers that work along with other prebiotic fibers found naturally in the foods we eat to feed and nourish good bacteria in the gut.

# Additional dietary support for your program

As you practice good eating habits and leverage the products carefully selected for Reset 30, consider additional support for your dietary gaps:

## **NUTRILITE™ CONCENTRATED FRUITS AND VEGETABLES**

Getting in nutrients found in fruits and vegetables has never been easier than with Nutrilite™ Concentrated Fruits and Vegetables. This powerful plant-based supplement packs the phytonutrient equivalent of more than 5 servings of fruits and vegetables from plants grown on our own Nutrilite farms and partner farms into each tablet.

100648

## **NUTRILITE™ VITAMIN B DUAL-ACTION**

Provides essential B vitamins to help the body unlock energy from the food we eat.

110171

## **NUTRILITE™ BALANCED HEALTH OMEGA**

Every serving of Nutrilite™ Balanced Health Omega delivers the Omega-3 equivalent of 3 servings of ocean fish. This convenient capsule helps support memory, learning and concentration.

A8914

## **NUTRILITE™ DOUBLE X™**

Every serving of Nutrilite™ Double X™ Multivitamin is packed with 12 essential vitamins, 10 essential minerals and 22 nutrients from colorful fruits, vegetables and herbs. Supports energy, heart, brain, eyes, skin, bones, immune and cellular health with over 40 nutrients.

# Physical activity

When you exercise, your body produces endorphins, which help to improve your mood. Regular exercise also helps improve posture, manage weight, relieve stress and even improve mental performance.

If you're already physically active and enjoy exercising, keep going and just make sure it's regular.

## GETTING STARTED

If you're not used to exercising regularly, check with your physician before starting any exercise regimen. Here are some tips to help you get started:

# 1

Start with simple exercises such as **walking or biking.**

# 2

Walking is effective, easy and low risk. It requires no special equipment, except comfortable sneakers. Try to set aside at least **30 minutes a day** for walking. You can start with 10 minutes and set a goal to increase +5 minutes every day.

# 3

**Use every opportunity to be more active.**

Use the stairs instead of the elevator, walk for 1-2 bus stops, or park your car in a place that provides a nice walk to your destination.

When you're ready to take it up a notch, free, on-demand HIIT workouts can be found at [xsfitnessprogram.ca](https://www.xsfitnessprogram.ca) for registered customers and Independent Business Owners.

# Hydration

**During the Reset 30 program, it's important to consume sufficient water.**

Water is needed for normal physical functions. Water makes up more than half your body weight and plays an important role in the body's natural cleansing function.

## WATER QUALITY IS IMPORTANT

**Ensure the water you drink is clean.**

**eSpring™, the world's number one selling brand of home water treatment systems.<sup>2</sup>**

- + **Effectively** destroys up to **99.99%** of waterborne bacteria and viruses that may be present in drinking water.<sup>3</sup>
- + **Filters** particles including **microplastics down to 0.2 microns.**<sup>3</sup>
- + **Preserves beneficial minerals in water**, such as calcium, magnesium and fluoride.
- + **Effectively reduces over 140 contaminants** including over 140-potential health affect ones that may be present in drinking water.<sup>3</sup>
- + Filters the water through a **pressed activated carbon block made of coconut shells**, which is **more porous than coal or wood**. Highly porous materials improve the quality and performance of water filtration.
- + **The eSpring water treatment system is certified to Class I Particulate Reduction by NSF International** which is for reduction of particles down to 0.5 microns. In addition, Amway has a third party verified claim for even smaller particles down to 0.2 microns. Therefore, if the particle is larger than 0.2 microns, the eSpring unit will filter.

**Explore the eSpring™ Water Treatment System**

### GENERAL RECOMMENDATION

+ We should consumer **at least 2 liters of water** (from all sources) per day.<sup>1</sup>

### HYDRATION TIPS

- + **Carry a reusable water bottle** to encourage frequent water consumption.
- + **Experiment with flavor infusions** (e.g. lemon, cucumber, mint, ginger) to add variety to your water intake.
- + Eat foods that have a **high water content** (e.g. fresh fruit).

<sup>1</sup> Based on WHO recommendation.

<sup>2</sup> Based on a Verify Markets study of 2020 global sales revenue.

<sup>3</sup> The eSpring Water Treatment System is designed for use only with potable water deemed safe to drink by local public health authorities. The eSpring Water Treatment System does not prevent or mitigate diseases. It has not been tested for the reduction of any coronaviruses (i.e. MERS, SARS or COVID-19).

# Positive mindset

Mindfulness and good sleep can impact your mindset, which is a key contributor to well-being and your success.

- + Create a specific **waking and sleeping schedule** to regulate your body clock.
- + **Wind down before bed** (e.g. take a bath, read, avoid social media).
- + If you love gummies, you may want to try **Sweet Dreams**, made with melatonin and passionflower. If you prefer tablets, consider **Nutrilite™ Sleep Health**, which contains the herb valerian which may help promote sleep.

- + **Follow the steps below to experience progressive muscle relaxation:**
- + Bring **awareness to a specific muscle** in your body.
- + Start to **squeeze that muscle** for a few seconds and then release.
- + **Notice the sensations**, imagine tension decreasing with each breath. Release and repeat with different areas of your body.

**SUFFICIENT SLEEP**

**PROGRESSIVE MUSCLE RELAXATION**

## MINDFULNESS

**SELF RECOGNITION**

**DIAPHRAGMATIC BREATHING**

- + **Don't be hard on yourself.** Forgot to follow the program today? **Don't worry.** Tomorrow is a new day and a **new chance to get back on track.**
- + **Congratulate yourself on your daily achievements** and thank yourself for the benefits you're starting to enjoy.
- + **Reward yourself for achieving interim goals.**

- + **Follow the below steps to experience it:**
- + Wear **comfortable clothes** and get yourself in a **comfortable position.**
- + **Inhale to fill your belly with air, hold** it for a few seconds (3-5), **exhale** from your lungs and then belly.
- + To help you, **try putting 1 hand on your belly** and the other **hand on your chest** so you can **feel** the belly and lungs **filling with air.**
