

# CANADIAN HEALTH PRODUCT SAMPLING RESTRICTIONS

In Canada, some products are regulated as Natural Health Products (NHPs), and fall under specific sampling restrictions. This is important to understand as giving FREE samples of NHP products to consumers is not permitted. Only medical professionals can provide NHP samples free of charge.

## SO, HERE IS ONE WAY TO SHARE NHPs WITH YOUR CUSTOMERS:

"I know you will love this selection of products that are good for you and your family. Here is your sample of \_\_\_\_\_ (NHP product here). Under federal regulations, all of our Natural Health Products require a minimal charge of 25¢\*. Amway complies with all regulations as a good business practice".

The following is a list of all Natural Health Products which fall under this restriction. All of these product will have an 8-digit NPN number on the front label. Any Amway Health product that is not listed can be given as FREE samples.
